Partnering with the Regional ADA Information Centers

State Vocational Rehabilitation Agencies can access a myriad of employer support resources regarding reasonable accommodations and other ADA-related issues by contacting their regional ADA Information Center.

The national network maintains an informative website at https://adata.org/, with links to each of the regional centers at https://adata.org/national-network. VR staff (and employers) can also access expert technical assistance by calling the toll-free number (1-800-949-4232) which will automatically connect to the local ADA Information Center.
